

## Project: GAEA

# Transformative Sustainability

*"One of Asia's leading providers of decentralized Sustainable Environmental Solutions."*

*Presented by AMIGOlife*

### Making Real Progress in Sustainability

**Project: GAEA** is established in Singapore, actively developing and financing Environmental, Social and Governance (ESG) projects in India and SE Asia. These projects cover a wide range of sustainability-related solutions, including:

- ✓ Water and wastewater treatment
- ✓ Rainwater harvesting
- ✓ Solar energy and energy-efficiency
- ✓ Recycling of food, medical waste and water

### High Business Scalability

The demand for small, decentralized sustainability solutions, especially by commercial and industrial end-users, is substantial and growing.

With our unique and innovative approach, *Project: GAEA* has developed, structured and grown a robust network with which we can quickly scale up, and address this audience.

Projects in our target market – Asia, that require such solutions, number in the hundreds of thousands.

Highly-Scalable

Decentralized

Projects

## Partners & Projects

*Project: GAEA\_'s network provides a proprietary pipeline of attractive opportunities to both stakeholders, partners and end-users alike, especially given that they address many of the **17 Sustainable Development Goals (SDGs)** set out by the United Nations.*

Our proven track record over the last few years validates the robustness of our business model, and its ability to scale-up substantially.

Furthermore, we have built (and are expanding) our network of water, clean energy and environmental technology and engineering companies, and other channel partners (such as local technical consultants, advisors, accountants, lawyers etc) throughout Asia to originate and develop projects.

## Stakeholders

### [Enterprise Singapore](#)

*A statutory board under the Ministry of Trade and Industry of the Government of Singapore, it supports us on its ESG internationalization efforts to establish its market presence in India, the Philippines and Indonesia.*

### [Workforce Singapore](#)

*A statutory board under the Ministry of Manpower of the Government of Singapore, it supports us on its capacity building and career reskilling initiatives.*

### [Public Utilities Board, Singapore](#)

*A statutory board under the Ministry of Sustainability and the Environment of the Government of Singapore, it has invited our Founders to conduct investment and financing training for water SME companies in Singapore.*

### [Economic Development Board, Singapore](#)

*A statutory board under the Ministry of Trade and Industry of the Government of Singapore, it has supported our Founders, including their efforts to attract and support mid-sized Asian water companies to use Singapore as a base to expand their water business in the region.*

### [Sustainable Energy Association, Singapore](#)

*It has previously engaged Project: GAEA to provide training on Solar Project Financing and Structuring for clean energy SMEs.*

### [The Babson Center of the University of the South at Sewanee](#)

*Is one of the leading liberal arts colleges in the USA, and has an ongoing partnership with Project: GAEA to provide internships for its honors students to gain international business experience in sustainability.*

## Leadership

**Project: GAEA's** founding members have a rich history in extensive project execution and day-to-day operational experience in environmental and sustainability projects in Asia.

They have served senior roles in water and project-development companies, EPC, and engineering businesses, including substantial experience with SMEs.

These combined experiences are critical to **Project: GAEA's** ability to successfully develop and demonstrate the sustainability and financial feasibility of its projects.
